

**DISTANCE LEARNING:
WELDING TECHNOLOGY MODULE (3 WEEKS)**

- Welding processes and equipment
- Materials and their behaviour during welding
- Construction and design
- Fabrication, applications engineering

ACCESS TO THIS MODULE:
Minimum requirement is a diploma like engineer degree from a university, BEng or BSc in an engineering discipline

IWI-C: 2.780,00 € / IWI-S: 2.270,00 € (incl. examination)

INTERMEDIATE EXAMINATION

ALTERNATIVE ACCESS

IWI-C: European/International Welding Engineer (EWE / IWE) or Welding Technologist (EWT / IWT) Diploma

IWI-S: European/International Welding Specialist (EWS / IWS) Diploma

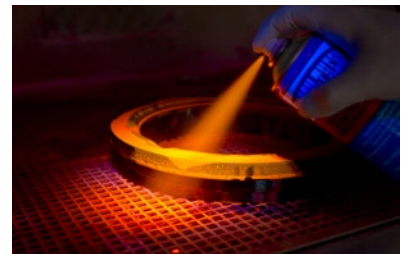

WELDING INSPECTION MODULE (3 WEEKS)

13 March - 30 March 2017
27 November - 14 December 2017

- Non Destructive Testing, Visual Testing (VT), Magnetic Particle Testing (MT), Penetrant Testing (PT), Ultrasonic Testing (UT), Radiographic Testing (RT)
- Inspection Procedures and Acceptance Criteria
- Preparation and Implementation of Inspection Procedures and Acceptance Criteria
- Quality Control Programs
- Identification of Weld Imperfections
- Inspection Requirements based on Specifications Codes or Standards

IWI-C: 4.280,00 € / IWI-S: 3.580,00 € (incl. examination)

FINAL EXAMINATION

The training for welding inspection personnel combines the two fields of welding and inspection technology. With the welding inspection personnel, industry has supervisors at its disposal who offer double competence and satisfy the requirements in both: Welding and Inspection Technology.

DIPLOMA

After successful completion of the course and passing the final examination the participant receives an IIW diploma with the title "International Welding Inspector at Comprehensive Level / Standard Level"
